

THE ORTHOPEDIC EDGE

Specialty Surgery Offered at All North Carolina Locations

Expert Orthopedic Care From Diagnostics to Surgery and Recovery

EmergeOrtho's expert surgeons focus on comprehensive care from diagnosis (including imaging), to conservative and surgical treatment, through recovery.

EmergeOrtho is proud to be a part of the growing movement toward specialty care in ambulatory surgery centers (ASCs), offering state-of-the-art facilities for outpatient procedures. ASCs offer better patient outcomes, lower costs and greater value, and may be a better alternative for patients who are candidates for outpatient surgery.

An outpatient setting isn't right for everyone or every procedure, but it often is. Your EmERGEOrtho surgeon will help you choose the best facility for your surgery.
